

Criteria	Descriptor	Application Section and Question	Maximum Rating Available	Evaluation rating	Scoring Guide - Degree to which the Application clearly demonstrates, in a measurable fashion, that it meets the evaluation criteria		
					Up to 33% of maximum points available	34%-66% of maximum points available	67%-100% of maximum points available
			Total = 100				
Sound, Efficient & Sustainable Health Care System Management							
Demonstrates improved flexibility and efficiency in the utilization of health care system resources	Integrated/ team based approaches incorporating and ensuring all health professionals are used to fullest scope of practice to provide effective and efficient delivery of health care services Appropriate utilization of NP (this position will be seen as an attractive opportunity for an NP).	Section A & C	PASS/FAIL - Circle one (automatic FAIL if proposal does not demonstrate NP is practicing to full scope)		Demonstrates improved integrated / co-ordinated use of resources that will deliver substantive and quantifiable improvements to service delivery. A highly developed proposal will demonstrate utilization more fully with built in plans to further reallocate / adjust existing resources / funding for further service delivery improvements.		
Improves transparency and accountability in monitoring and evaluating value received for funding	Clear, accurate and complete information will be provided and monitored to evaluate the service and eliminate the risk of overlapping payments for services from different sources	Sections C	20		Application will improve accuracy, timeliness and completeness of information used to manage and evaluate the service	Application will improve accuracy, timeliness and completeness of information used to manage and evaluate the service and will eliminate the risk of overlapping payments from different sources	Application will result in demonstrable, quantifiable savings to the health care system through improved management
Strategic Alignment							
Alignment with Government priorities / strategies	Supports Government provincial priorities / strategies in health care	Section B	20		Application aligns somewhat with Government priorities	Application clearly and solidly aligns with one or more Government priorities	Application is essential to pursue one or more Government priorities / strategies
Alignment with Community needs and priorities	Supports identified gaps in community delivery of health care services	Section B	20		Application aligns somewhat with Health Authority priorities	Application clearly and solidly aligns with one or more Health Authority priorities	Application is essential to the ability to pursue one or more Health Authority priorities / strategies / plans

Results Focused Health Care System Performance							
Improves access to health services for patients and increase the quantity of health services to delivered to patients.	Measurable improvements in timeliness / availability of medical services for the patient population served Measurable increases in the number of patients receiving services to address increasing demand for service	Section C	20		Sustains or minimally increases service volume and access and to medical services	Moderately increases volume and improves access to health services	Significantly increases services volume and improves access to health services
Improves effectiveness / quality of medical services for patients	Measurable improvements in patient outcomes	Section C	20		Minimally improves patient care/quality of services	Provides moderate improvements in health outcomes for patients	Provides significant improvements that address complex or specialized patient care (e.g. chronic)
Proponent Capacity and Operational Rediness							
Health Human Resources resource capacity required to successfully perform the proposed services	Proponent has access to a sufficient number of health care providers with the necessary expertise/experience to provide services	Section D	PASS/FAIL - Circle one		Proponent currently has access to all necessary resources (credentials and/or numbers) and does not need to rely upon further recruitment or training to provide the service.		
Resources required to successfully perform the proposed services	Proponent ability to provide all other resources required for the proposed services to be delivered as and when planned (i.e. Facilities/ equipment/ operating budget/etc.)	Section D	PASS/FAIL - Circle one		Currently have all of the resources required in place.		
Process to define roles/ working relationships in place to perform the proposed services	Proponent has a process in place to ensure roles, responsibilities and operational processes are in place.	Sections C & D	PASS/FAIL - Circle one		Currently have all of the processes and role definitions in place and is ready to implement.
